OTESFOR**SCHOOLS**

Was COP26 successful?

19th - 26th November 2021

69.42%

of Primary KS2 voters said No.

79.16%

of Secondary voters said No.

83.83%

of 16+ & College voters said No.

In September, VotesforSchools worked with UNICEF UK's Rights Respecting Schools to get our voters' views on children's rights and climate change ahead of COP26. This topic clearly highlighted the urgency that many young people feel about this issue, and that they believe not enough is being done to tackle it.

So, did COP26 allay these concerns? That's what we sought to find out after the conference ended and we asked voters to reflect on COP26 and whether it was a success. Following extensive press coverage of powerful messages, concerted efforts, and last-minute disagreements, there was plenty for them to consider.

The VoteTopic this week allowed voters from age 8-18 to share their opinions on the question: "Was COP26 successful?". Meanwhile, our younger voters discussed the question: "Do we look after the planet?".

36,063 young people in the UK took part in this vote.

Sample of 36,063 voters

Primary: 10,944 voters Secondary: 23,746 voters Secondary 16+ & College: 1,373 voters

Please Note: The sample size featured reflects the number of pupils and students that cast their vote on this topic during the week in which this vote was held. This sample size therefore does not reflect the number of pupils and students who discussed this VoteTopic but did not get a chance to participate in the voting.

VoteTopic Overview:

Question Primary KS1:

"Do we look after the planet?"

Question Primary KS2, Secondary, 16+ & College:

"Was COP26 successful?"

Be informed.

Be curious.

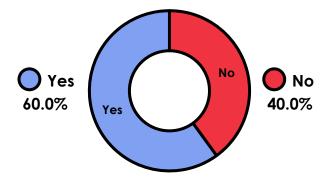

Be heard.

Grand Total

Primary KS1:

"Do we look after the planet?" Yes 59.98% (2,157) No 40.02% (1,439)

Primary KS2:

"Was COP26 successful?"

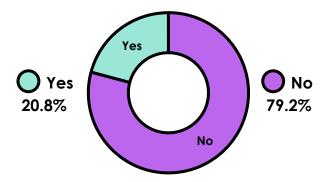

Yes 30.58% (2,247) No 69.42% (5,101)

Secondary:

"Was COP26 successful?"

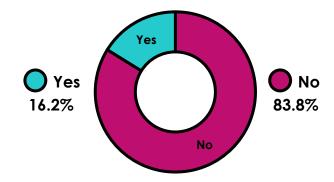

Yes 20.84% (4,949) No 79.16% (18,797)

Secondary 16+ & College:

"Was COP26 successful?"

Yes 16.17% (222) No 83.83% (1,151)

Yes (max. 44%)

No (max. 91%)

<u>Voter Comments - Primary KS1: "Do we look after the planet?" & Primary KS2: "Was COP26 successful?"</u>

"It was a **good start**, but these things **take time**, we can **all** make a **difference** by our **actions** rather than **words**."

Primary School, Surrey

"It was a success because it brought leaders together and made people discuss it."

Primary School, Suffolk

"Yes, because the success is that by 2030 deforestation will end."

Primary School, Lincolnshire

"If **big** countries are **still** burning and using **fossil fuels**, this still **massively** impact our **planet**."

Primary School, Lincolnshire

No, because there are too many things happening like animals dying, global warming and flooding but people are still not agreeing. We need to step up and this is something that we need to fix."

Primary School, Buckinghamshire

"I think that it wasn't a success because all the leaders will **not** keep on doing what they **agreed** to, and the Cop 26 was full of **pollution** by people **flying** there."

Primary School, Buckinghamshire

"I don't think Cop 26 was that successful because some people are **still protesting** everywhere and saying that Cop 26 **didn't do that much** as people **thought** it would've so in my opinion, I don't think it was that successful."

Primary School, Northamptonshire

Be curious. Be heard.

"No because it needs to **change now not** in **2030** or 2040."

Primary School, Suffolk

"I think that there is too much waiting now and we don't have time to wait!"

Primary School, Berkshire

Voter Comments – "Was COP26 successful?"

"If we did not have COP26 we would not have made **any progress** at all towards **saving** the **planet**. **Some** progress is better than **no** progress."

Secondary School, Lincolnshire

"The controversy regarding
"phase down" and "phase out" is
understandable, but phase
down still means we are going
in the right direction."

Secondary School, Greater Manchester

"I don't think that Cop 26 was entirely successful as lots of the changes they are aiming to make, will not be reached until about 10 more years. However, I do think it is a step in the right direction and we are making progress."

Secondary School, West Midlands

"COP26 wasn't as successful as it could be, there seemed to be little concern for the animals and their environment in these agreements."

Secondary School, Surrey

"It's really bad that most world leaders flew to Glasgow and all the carbon emission that are released from this process."

Secondary School, Kent

Be curious. Be heard.

"More can be done, and it can be done better and more quickly. People need to stop putting money before lives."

Secondary School, Surrey

"It was horrible we did not manage to stop at 1.5 degrees we are now at 1.8 degrees we need change now and I mean it."

Secondary School, Lancashire

"I'm glad we are talking about this; all the leaders say "oh well we'll hit **0 carbon emissions** by **2050**" but they probably **won't even** be able to do it by **2100**. It was a failure, and it **wasn't successful**."

Secondary School, Lancashire

"If we do not fix this issue everyone will feel the catastrophic consequences of global warming. Even if it does not directly affect world leaders and other well - off people in developed countries, many people's lives - in less developed countries for example - will be dramatically changed. People in our generation and future generations will be the most affected. So, I think people in power need more empathy for these people."
