# WELCOME TO THE FUTURE FOOD MOVEMENT COMMUNITY

Are you ready to be upskilled, inspired and connected on the  
biggest challenges facing the food and drink sector?

VERIS

POWERED BY THE TEAM AT VERIS STRATEGIES, A  
SPECIALIST FOOD INDUSTRY SUSTAINABILITY AGENCY

# WHO ARE FUTURE FOOD MOVEMENT?

FUTURE FOOD MOVEMENT IS POWERED BY THE TEAM AT VERIS STRATEGIES, A SPECIALIST SUSTAINABILITY AGENCY FOR THE FOOD INDUSTRY

## OUR MISSION

Our mission at Future Food Movement is to accelerate climate action by facilitating a cultural shift through inspiration, upskilling and collaboration that moves the food industry from observation to meaningful participation.

## WE ARE BUILDING A MOVEMENT TO FUTURE PROOF THE FOOD INDUSTRY

**"A MOVEMENT IS NOT A MOVEMENT UNLESS IT MOVES WITHOUT YOU" (#NEWPOWER)**

Sounds simple. But it needs a whole different mindset on what leadership is and how you build and run an organisation in the face of the climate crisis.

Movements have, at their hearts, ideas that are Actionable (we can join in), Connecting (we feel part of something bigger, with other people), and Extendable (we can do things in our own ways-not totally prescriptive).

Future Food Movement is a business membership community, that aims to radically upskill and support anyone in the food industry who understands that the turning point has come, and that every job is now a climate job.

The situation is clear: without a food system that works for people and planet, humanity is in serious trouble. We know that among food industry leaders there's a desire to do more.

Future Food Movement is helping our members hardwire climate skills into their businesses, unlocking the human capital that will empower action on climate and reshape the climate-smart food system of the future.
